

Preventable Breaches

Educating your staff to recognize a breach is your first line of defense! We provide a Breach Notification Policy, a Breach Risk Determination tool, and a training video that fully explains the Breach Notification Rule.

Breach Notification

HIPAA compliance requires that your workforce be trained on policies and procedures, including breach notification. Let HIPAAtrek assist you with this requirement.

Loss or Theft of Patient Data

HIPAA compliance will prevent penalties that can equal \$50,000 minimum per incident with an annual cap for all violations of \$1.5 million.

Are Your Employees Engaged In Your HIPAA Compliance Goals?

Security Reminder

In a State of HIPAA Survey, 58% of compliance managers reported they were concerned over breaches caused by employees. Lack of employee involvement and understanding often lead to preventable breaches. You can create, schedule and send customized security reminders and training on YOUR policies and procedures directly through our platform.

Employee Training

Over 50% of healthcare data breaches are caused by employees. Safeguard your protected health information by training your staff on privacy and security basics. Assign videos and quiz staff for comprehension. Our short videos allow you to assign training videos throughout the year to ensure retention of compliance knowledge.

Policy Management

Manage your policies and procedures with our Policy module. Load in your existing policies or use our templates. Version control is at the policy and procedure level so you can easily track the history of your policies.

Form Management

Create forms to be used throughout your organization. Version control maintained for 25 years. You can be assured that your staff will always have access to the most current versions.

Manage Tasks

Staying on top of compliance related tasks has never been easier! Our task management module allows you to assign and track compliance activities directly to your employees. HIPAAtrek creates a log of all your compliance activity making it easy to audit your implementation efforts while keeping compliance at the forefront for your entire organization!
